

ECB GUIDELINES on CHANGING ROOMS and SHOWERING FACILITIES

Adopted by FAKENHAM CRICKET CLUB

All ECB affiliated cricket clubs must have a Changing Policy, guidelines apply to the arrangements made for adults, and children, using changing facilities.

Best practice principles to be adopted by the club, wherever possible, are as follows:

- Adults must not change, or shower at the same time using the same facility as children – if the same changing room is used then they must use it at different times
- Mixed gender teams must have access to separate male and female changing rooms
- Due to the risks of inappropriate photography or filming, mobile phones must not be used in changing rooms

If children are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. Suggest instead that they may change and shower at home.
